

EDUCATION

B.E .AIML -Sri Eshwar College of Engineering upto 2 nd sem -7.7	2023-2027
HSC - Kids Park Matriculation Higher Secondary School 100%	2021 -2023
SSLC - Kids Park Matriculation Higher Secondary School 83.5%	2020-2021

PROJECT

Library Management system:

A Library Management System (LMS) is a software application designed to manage and automate the various tasks and processes involved in running a library efficiently. It serves as a centralized platform for librarians to organize, catalog, and track library resources, as well as facilitate user interactions with those resources.

Programming language: C

Electricity Bill Management System:

The Electricity Bill Management System is a comprehensive application designed to streamline the management of electricity consumption, billing, and payments. It is intended to assist both electricity providers and consumers in efficiently handling bill generation, payment processing, and consumption tracking. The system is designed to provide transparency, ease of use, and accuracy in energy billing and management processes.

Direct Market Access Mobile App for Farmers:

The Direct Market Access Mobile App aims to revolutionize the agricultural market by directly connecting farmers with consumers, retailers, and wholesalers, reducing the dependence on intermediaries. This initiative addresses the need for transparent, efficient, and fair trade in agricultural produce, empowering farmers by giving them better control over the sale of their products while ensuring that consumers receive fresh produce at competitive prices.

CERTIFICATIONS

Unsupervised Machine Learning With K-Means Great Learning	- 2023
Basics of python Infosys Springboard	- 2024
Python in machine learning Great Learning	- 2023
The complete C developer course udemy	- 2023
Mastering Data Structures & Algorithm using c and c++ udemy	- 2024
Learn JAVA programming Beginner to Master udemy	- 2024
Fundamentals of Generative AI GUVI	- 2024

PROGRAMMING ACHIEVEMENTS

Codechef : 200+problem solved

Leet code : 40+ problem solved

Hackerearth : 30+ problem solved

SKILLS

Languages - C | Python | HTML | CSS | Javascript | JAVA | C++ | MYSQL

Core - Data Structures and Algorithms | OOPS

Tools - VScode | CodeBlocks| Canva | Github

AREA OF INTRESTS

1. MACHINE LEARNING

2. WEB DEVELOPMENT

3.FULL STACK DEVELOPMENT
